

DISPERSION SALE!

**Hartley Farms
Shorthorns**

BAXTER SPRINGS, KANSAS

October 18, 1956

Mr. Shorthorn Cattleman !

BULL POWER . . .

**has always been the theme at
HARTLEY FARMS**

The outstandingly successful IMPORTED GLASSEL DORA, famous for the uniformity of his get, followed by the great boned sire IMPORTED MOY BOUNTY, one of the most massive bulls of the breed, have made Hartley Farms one of the best known Shorthorn breeding establishments in the Southwest.

H. F. Clipper Research by Les Mathers' famous Glassingal Research currently in service with Moy Bounty adds his "Power" to the strength of seed stock available at Hartley Farms. Nor should the cow herd be overlooked. Extensive purchases and rigid culling have left a reservoir of outstanding Scotch pedigree females.

Only in a dispersial sale can such select cattle be purchased. Imported cattle in these pedigrees predominate. These cattle, with individuality and breeding of the best, will do well wherever they go. It has taken many years and a great deal of money to build a herd like this.

We invite and welcome you to our sale.

Please BRING THIS CATALOG to the sale with you.
